CMCC Doc. No. 151.701

Copy 1 of 2

Page 1 of 1

Dear Herb:

I am returning herewith ASTIA Document No. 93-078, entitled Flush Antennas for AN/ARN-14 and AN/ARC-33 Equipments in B-50D Airplanes. This report contains much useful information on radiation patterns, and several of our staff members concerned with radiation pattern configuration have inquired whether it would be possible for us to secure a copy of this report which could be retained for a more or less indefinite period of time - say, six or eight months.

We are also returning ASTIA Reports No. AD 29-848 and AD 43-344, both of these reports being NACA Research Memorandums.

We are forwarding also requests for certain additional documents available through ASTIA; these are expected to prove useful in the work presently under way.

Sincerely,

Burt
